Newsletter Co-Ordinator	Gilman Jelkin
Newsletter Editor and OTHG Webmaster	
Donna Ingram @ Frontline Graphics	

OTHG History by John Justus

10 years ago
May 2010

President Dick Gilbert thanked everyone who attended the club picnic and auction. The auction brought in \$596 for the club. Don Sauberan wrote an article about a trip to the NSRA show in Bakersfield. The group included several current and former members. At the May board meeting it was decided to bring back the member profiles that we had in previous years. One profile would appear in each issue of the Road Rash. The idea behind this is to have the members get to know each other a little better. There was no shop tip article from Dick Raczuk this month. The car of the month was Ken Wilkerson's 1955 Chevy half-ton pickup. Larry Schnore was the subject of this month's member profile. Dan Mosio was the latest recipient of the toilet seat award. He put a hole in his engine oil pan leaving the club picnic. Bill Morris won the 50/50 drawing.

Prez Sez by Bruce Hall

Hello from afar (social distancing)
This is definitely different times for all of us. My heart  goes out to everyone and trying to adjust in this new way of life. I would really like it if everyone would maybe contribute something for the newsletter so we can stay in touch. I know this is hard for all of us especially during our busy car  season so just hang in there and know that you are missed and this too shall pass!!

We will get thru this TOGETHER!!

Keeping in touch.....

This link ([Dick Raczuk Hollywood](#)) is a video on my Hollywood. Turns out this car was stored 3 miles from me when I lived in Van Nuys CA. 1950's.

It was located on Darby Ave, Reseda Calif. I bought it in the late ninety's when I lived in Colorado. Had my hometown Van Nuys newspaper in the back

Tip by Dick Raczuk "Koul Tools"

Ok, summer is just around the corner. This rule applies all year round, but especially in the hot summers we get here. Always leave your measuring tools open when storing as shown. They need room for expansion.

Health Tip 1/2

Here are the OFFICIAL Corona virus guidelines:

1. Basically, you can't leave the house for any reason, but if you have to, then you can.
2. Masks are useless, but maybe you have to wear one, it can save you, it is useless, but maybe it is mandatory as well.
3. Stores are closed, except those that are open.
4. You should not go to hospitals unless you have to go there. Same applies to doctors, you should only go there in case of emergency, provided you are not too sick.
5. This virus is deadly but still not too scary, except that sometimes it actually leads to a global disaster.
6. Gloves won't help, but they can still help.
7. Everyone needs to stay HOME, but it's important to GO OUT.
8. There is no shortage of groceries in the supermarket, but there are many things missing when you go there in the evening, but not in the morning. Sometimes.
9. The virus has no effect on children except those it affects.
10. Animals are not affected, but there is still a cat that tested positive in Belgium in February when no one had been tested, plus a few tigers here and there...
11. You will have many symptoms when you are sick, but you can also get sick without symptoms, have symptoms without being sick, or be contagious without having symptoms. Oh, my..
12. In order not to get sick, you have to eat well and exercise, but eat whatever you have on hand and it's better not to go out, well, but no...
13. It's better to get some fresh air, but you get looked at very wrong when you get some fresh air, and most importantly, you don't go to parks or walk. But don't sit down, except that you can do that now if you are old, but not for too long or if you are pregnant (but not too old).
14. You can't go to retirement homes, but you have to take care of the elderly and bring food and medication.
15. If you are sick, you can't go out, but you can go to the pharmacy.
16. You can get restaurant food delivered to the house, which may have been prepared by people who didn't wear masks or gloves. But you have to have your groceries decontaminated outside for 3 hours. Pizza too?
17. Every disturbing article or disturbing interview starts with "I don't want to trigger panic, but..."
18. You can't see your older mother or grandmother, but you can take a taxi and meet an older taxi driver.

Health Tip 2/2

Here are the OFFICIAL Corona virus guidelines: **CONT..**

19. You can walk around with a friend but not with your family if they don't live under the same roof.
20. You are safe if you maintain the appropriate social distance, but you can't go out with friends or strangers at the safe social distance.
21. The virus remains active on different surfaces for two hours, no, four, no, six, no, we didn't say hours, maybe days? But it takes a damp environment. Oh no, not necessarily.
22. The virus stays in the air - well no, or yes, maybe, especially in a closed room, in one hour a sick person can infect ten, so if it falls, all our children were already infected at school before it was closed. But remember, if you stay at the recommended social distance, however in certain circumstances you should maintain a greater distance, which, studies show, the virus can travel further, maybe.
23. We count the number of deaths but we don't know how many people are infected as we have only tested so far those who were "almost dead" to find out if that's what they will die of...
24. We have no treatment, except that there may be one that apparently is not dangerous unless you take too much (which is the case with all medications).
25. We should stay locked up until the virus disappears, but it will only disappear if we achieve collective immunity, so when it circulates... but we must no longer be locked up for that?"

Miscellaneous

ACT NOW—TELL CONGRESS TO PASS THE RPM ACT AND SAVE OUR RACECARS!

Protect your right to race! Tell Congress to pass the RPM Act now and stop the EPA from destroying motorsports in 2020. Your member of Congress needs to hear from you before the end of the year!

- Street vehicles—cars, trucks, and motorcycles—can't be converted into racecars according to the EPA.
- The EPA has announced that enforcement against high performance parts—including superchargers, tuners, and exhaust systems—is a top priority for 2020.
- The RPM Act was just reintroduced. Even if you are one of the hundreds of thousands of enthusiasts who contacted Congress in the past, we need your support now!
- Tell the bureaucrats in Washington that racecars are off limits!
