OTHG History by John Justus

10 years ago

November 2013

President Dick Raczuk wrote about his busy December. He went to the SEMA Show and then the PRI show in Indianapolis and finally the OTHG Club Christmas Party. He thanked the club members for their help and participation in the club events. Dick's shop tip was for people who think their cup is always half full: "Get a smaller cup." The car of the month was Dick's 1941 Graham Hollywood. There was no member profile. The club Christmas party at Shugrue's was well-attended, and judging by the photographs everyone appeared to have a good time.

December's a time to reflect so it moves me to write a little poem for the holidays.

December is upon us and the air is cool and clear
it is time to reflect on this past year.
We had lunches and dinners and a picnic to boot,
Car Shows and drives it was a great hoot.
Spending time with friends and stories that are told
I can see we've all gotten a little old.

I will miss the friends we lost but the memories will stay
I have visions of their cars 🚗 and their quirky ways.

We lost a lot of friends that were members this year, and I wouldn't be doing my job if I didn't remind you all of a great member of this club that put his heart and soul into making this club what it is today. Bill Ensley was such a rock to this club. He kept us grounded and on course. I can only hope we will not let him down.

I would like to make a toast, 🍷 to the friends we made, the memories we shared, and to the ones we lost.

May your travels be filled with cheer and Joy.
Be safe and healthy wherever your travels take you.
Merry Christmas and Happy Holidays to everyone 🎄

Thank You for letting me serve you as your past president,

Brad Lano,
President Over the Hill Gang

"HEALTH TIP" by Dick Raczuk

Mental Confusion---Very interesting

Very interesting info that, quite frankly, I never thought about.

By: Arnaldo Liechtenstein, physician

Whenever I teach clinical medicine to students in the fourth year of medicine,

I ask the following question:

What are the causes of mental confusion in the elderly?

Some offer: "Tumors in the head". I answer: No!

Others suggest: "Early symptoms of Alzheimer's". I answer No!

With each rejection of their answers, their responses dry up.

And they are even more open-mouthed when I list the **three most common causes:**

- **uncontrolled diabetes**
- **urinary infection**
- **dehydration**

It may sound like a joke, but it isn't. People over 60 generally stop feeling thirsty and consequently, stop drinking fluids.

When no one is around to remind them to drink fluids, they quickly dehydrate.

Dehydration is severe and affects the entire body. It may cause abrupt mental confusion, a drop-in blood pressure, increased heart palpitations, angina (chest pain), coma and even death.

*This habit of forgetting to drink fluids begins at age 60, when we have just over 50% of the water we should have in our bodies. People over 60 have a lower water reserve.

This is part of the natural aging process.

*But there are more complications. Although they are dehydrated, they don't feel like drinking water, because their internal balance mechanisms don't work very well.

***Conclusion: ***

People over 60 years old dehydrate easily, not only because they have a smaller water supply, but also, because they do not feel the lack of water in the body.

Although people over 60 may look healthy, the performance of reactions and chemical functions can damage their entire body.

So, here are two alerts:

1) *Get into the habit of drinking liquids*. Liquids include water, juices, teas, coconut water, milk, soups, and water-rich fruits, such as watermelon, melon, peaches and pineapple, orange and tangerine also work.

*The important thing is that, every two hours, you must drink some liquid.

Remember this! *

2) Alert for family members: constantly offer fluids to people over age 60.

At the same time, observe them. If you realize that they are rejecting liquids and, from one day to the next, they are irritable, breathless or display a lack of attention, these are almost certainly recurrent symptoms of dehydration.

Inspired to drink more water now?? Send this information out to others!

Your friends and family need to know for themselves and help you to be healthier and happier. It's good to share!

For people over 60 DRINK SOME WATER.
